BugslistReport
Online DnD
Ro Sham Bo
March 11, 2016
Revision 1.0

Bugs:
- Crashes when first open. App works if page is refreshed
- May start to slow down if it is being hosted on Pythonanywhere
- The player position field may think a value is out of range but it is actually not, it may work if tried again
- Character sheet does not get deleted when the user deletes their character

Features Not Implemented:
- Multiple rooms
- Be want to be able to learn the rules and systems of the game
- Be able to use information from character sheets directly (macros), so that there will be smoother gameplay
